Work Package 4. Management of the calls for access and evaluation of the access given

WP4 objective is to organise, administer and evaluate the AQUAEXCEL calls for access. The call for transnational access will be based on specific expertise and services of the different members of the consortium.

The management will be articulated in four actions:

- ❖ Organising and disseminating an open call on a 6 months basis
- ❖ Putting in place the procedures for selection of user groups responding to the call
- ❖ Selecting the members of the selection panel, managing it and organising its review of responses to the call
- ❖ Evaluating the nature and quality of the access given and feeding back to Executive Committee
