

AQUAEXCEL

AQUAculture infrastructures for EXCELlence in European Fish
research

Work Package 5. Training, knowledge & technology transfer and communication

The objectives of Work Package 5 are:

1. To design and deliver new pioneering training courses which demonstrate technical cutting edge aquaculture experimentation techniques.#
2. To promote the AQUAEXCEL project, objectives, products and events to a range of key stakeholders, most notably including senior-level decision makers from industry, European & national policy and legislative officers, early-stage & experienced researchers, other project coordinators, mainstream & trade media, and the European aquaculture technology platform, EATiP.
3. To transfer research and technical outputs and best practices of the AQUAEXCEL project.
4. To facilitate networking opportunities by putting in place targeted dissemination and communication measures.
5. Establish durable links between the consortium and strategically important European aquaculture clusters.
